ANGLICAN COMMUNITY CARE INCORPORATED For the year ended 30 June 2022

STATEMENT BY MEMBERS OF THE BOARD OF MANAGEMENT

In the opinion of the Board the financial report:

- a) Presents a true and fair view of the financial position of Anglican Community Care Incorporated as at 30 June 2022, and its performance for the year ended on that date in accordance with Australian Accounting Standards (including Australian Accounting interpretations) of the Australian Accounting Standards Board.
- b) At the date of this statement, there are reasonable grounds to believe that Anglican Community Care Incorporated will be able to pay its debts as and when they fall due.

This statement is signed on behalf of the Board in Mount Gambier this 2% day of September 2022.

INDEPENDENT AUDITOR'S REPORT

To the members of Anglican Community Care Incorporated

Report on the Audit of the Financial Report

Audit Opinion

We have audited the accompanying financial report of Anglican Community Care Inc (the Association), which comprises the statement of financial position as at 30 June 2022 statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and the Directors declaration.

In our opinion, the accompanying financial report of the Association is in accordance with Division 60 of *Australian Charities and Not-for-profits Commission Act 2012* (the ACNC Act), including:

- I. giving a true and fair view of the Association's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- II. complying with Australian Accounting Standards Simplified Disclosures and Division 60 of Australian Charities and Not-for-profits Commission Regulations 2013.

Basis for Audit Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the Audit of the Financial Report section of our report. We are independent of the Association in accordance with the ACNC Act, the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility of the Directors for the Financial Report

The directors are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – Simplified Disclosures and the Australian Charities and Not-for-profits Commission Act 2012 (Cth) and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Association's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Association or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or
 error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
 misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
 collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The above statement should be read in conjunction with the accompanying notes.

For the year ended 30 June 2022

1 General information

Anglican Community Care Incorporated is incorporated and domiciled in Australia.

Core activities include the recruitment and support of foster carers, supports for people experiencing homelessness, residential care services for young people, aboriginal services, family relationships and support, creche for vulnerable children, financial counselling, financial inclusion and emergency relief.

2 Summary of significant accounting policies

2.1 Basis of preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards - Simplified Disclosures of the Australian Accounting Standards Board (AASB) and the Associations Incorporations Act 1985 in South Australia and the Australian Charities and Not-for-profits Commission Act 2012. Anglican Community Care Incorporated is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the Australian Accounting Standards Board has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of the financial statements are presented below and have been consistently applied unless stated otherwise. The exception to this are changes described in Notes 2.6 relating to accounting for revenue from contracts and income of not-for-profit entities.

The financial statements, except for cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

2.2 Comparative information

The presentation and classification of items in the financial statements are consistent with prior periods except where specific accounting standards and/or accounting policy statements has required a change.

Where presentation and classification of items in the financial statements have been amended, comparative figures have been adjusted to conform to changes in presentation or classification in these financial statements unless impracticable. The restated comparative amounts do not replace the original financial statements for the preceding period.

2.3 Rounding

All amounts in the financial statements are rounded to the nearest dollar.

2.4 Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to the ATO. If GST is not payable to, or recoverable from the ATO, the commitments and contingencies are disclosed on a gross basis.

For the year ended 30 June 2022

2.5 Income Tax

No provision for income tax has been raised as the Entity is exempt from income tax under Div 50 of the Income Tax Assessment Act 1997.

2.6 Income and expenses

AASB 15 Revenue from Contracts with Customer's and AASB 1058 Income of Not-for-Profit Entities, which commenced from 1 July 2019, affects the timing with which revenues, particularly special purpose grants, are recognised. Amounts received in relation to operating grant revenue, donations or bequests have been assessed to determine whether a contract(s) is enforceable and has sufficiently specific performance obligations in accordance with AASB 15. Where both these conditions have been satisfied, revenue has been recognised as these obligations are fulfilled. Grants that are considered not sufficiently specific are recognised in accordance with AASB 1058 upon receipt. Accordingly, the operating results of these periods have been distorted compared to those that would have been reported had the grants been paid in the year to which they were allocated.

In recent years, the payment of grants considered insufficiently specific has varied as shown in the table below, the main difference occurring from 1 July 2021:

	Net Profit	Carryovers adjusted through liability	Adjusted total
2019-2020	733,032	725,792	1,458,824
2020-2021	652,129	1,180,229	1,832,358
2021-2022	1,649,908	512,121	2,162,029

Net profit for 2021-2022 includes \$1,420,018 carryovers not adjusted via liability, recorded via equity reserve. Net profit for 2020-2021 was fully adjusted via liability and not equity reserve.

Income and expenses are recognised in the Entity's Statement of Comprehensive Income when and only when it is probable that the flow of economic benefits to or from the Entity will occur and can be reliably measured.

Income and expenses have been classified according to their nature and have not been offset unless required or permitted by a specific accounting standard, or where offsetting reflects the substance of the transaction.

Fees and charges

Revenues from fees and charges are derived from the provision of goods and services to other agencies and to the public. This revenue is recognised upon delivery of the service to the clients or by reference to the stage of completion.

Contributions received / paid

Contributions are recognised as an asset and income when the Entity obtains control of the contributions or obtains the right to receive the contributions.

For contributions payable, the contribution will be recognised as a liability and expense when the Entity has a present obligation to pay the contribution.

2.7 Current and non-current classification

Assets and liabilities are characterised as either current or non-current in nature. The Entity has a clearly identifiable operating cycle of twelve months. Therefore, assets and liabilities that will be realised as part of the normal operating cycle will be classified as current assets or current liabilities. All other assets and liabilities are classified as non-current.

2.8 Cash and cash equivalents

Cash and cash equivalents in the Statement of Financial Position includes cash at bank and on hand and other short-term deposits. Cash and cash equivalents in the Statement of Cash Flows consist of cash and cash equivalents as defined above, net of bank overdrafts.

Unrestricted access was available at balance date to the following credit facilities:

Corporate Credit Cards \$75,000

Cash is measured at nominal value.

2.9 Receivables and other assets

Receivables and other assets include amounts receivable from goods and services, prepayments and other accruals.

Receivables arise in the normal course of selling goods and services to other agencies and to the public. Receivables are generally receivable within 30 days after the issue of an invoice or the goods/services have been provided under a contractual arrangement.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Other debtors arise outside the normal course of selling goods and services to other agencies and to the public.

Collectability of receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that the Entity will not be able to collect the debts.

2.10 Property, plant and equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than its estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset.

Right of use Property, plant and equipment

Right of use assets in accordance with AASB 16 and Note 2.16 relate to leases for property, equipment and motor vehicles.

Right of use assets are valued at net present value of the lease contract from inception for the term of the lease taking into consideration extension options where it is reasonably expected to be exercised. They are carried at fair value less accumulated amortisation and any accumulated impairment losses.

Further information about Right of Use assets can be found in Notes 19.

2.11 Depreciation and Amortisation

The depreciable amount of all fixed assets, including property, is depreciated on a straight-line basis over the asset's useful life to the Entity commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

Class of fixed asset	Depreciation rate	Right of use Amortisation rate
Property	1.67-20%	7-50%
Plant and equipment	5-10%	20-33%
Motor vehicles	10-50%	20-50%

2.12 Financial Assets

Financial assets are recognised when the entity becomes party to the contractual provision to the instrument. For financial assets this is the date that the entity commits itself to either the purchase or sale of the asset. Financial assets are subsequently classified at fair value through profit or loss, in which case transaction costs are expensed to profit or loss immediately. Where available quoted prices in an active market are used to determine fair value.

For the year ended 30 June 2022

2.13 Impairment of non-financial assets

At the end of each reporting period, the Entity assesses whether there is any indication that an asset may be impaired. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use to asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss. Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with AASB 116.

Where it is not possible to estimate the recoverable amount of an individual asset, the Entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for intangible assets with indefinite lives.

2.14 Intangibles

An intangible asset is an identifiable non-monetary asset without physical substance.

Computer software

Software costs are capitalised only when the Entity identifies that the project will deliver future economic benefits and these benefits can be measured reliably. Software is considered as having a finite useful life and is amortised on a systematic basis over the useful life to match the economic benefits received to the periods in which the benefits are received. Amortisation begins when the software becomes operational.

Class intangible asset	Amortisation rate
Software	10-20%

Intangible assets under development

Intangible Assets under development are capitalised only when the Entity identifies the project will generate probable future economic benefit and the cost of generating the intangible asset can be reliably measured. The intangible assets are deemed to have no useful life until the development has been completed and the asset becomes operational. Amortisation begins when the asset becomes operational.

2.15 Payables

Payables include creditors, accrued expenses and staff on-costs.

Creditors represent the amounts owing for goods and services received prior to the end of the reporting period that are unpaid at the end of the reporting period. Creditors include all unpaid invoices received relating to normal operations of the Entity.

Accrued expenses represent goods and services provided by other parties during the period that are unpaid at the end of the reporting period and where an invoice has not been processed / received.

All payables are measured at their nominal amount, are unsecured and are normally settled within 30 days from the date of the invoice or date the invoice is first received.

Staff on-costs include superannuation contributions with respect to outstanding liabilities for salaries and wages, long service leave and annual leave.

The Entity makes contributions to several superannuation schemes. These contributions are treated as an expense when they occur. There is no liability for payments to beneficiaries as they have been assumed by the respective superannuation schemes. The only liability outstanding at balance date relates to any contributions due but not yet paid to superannuation schemes.

2.16 Borrowings

Loans are carried at their principal amounts which represent the present value of future cashflows associated with servicing the debt.

For the year ended 30 June 2022

2.17 Leases

Concessionary leases

For leases that have significantly below market terms and conditions principally to enable the Entity to further its objectives (commonly known as peppercorn/concessionary leases), the Entity has adopted the temporary relief under AASB2018-8 and measures the right of use assets cost on initial recognition.

General application:

Recognition exemptions for short-term leases and leases for which the underlying asset is of low value have been applied. Amounts relating to the application of recognition exemptions are included in the note to right of use assets and lease liabilities. Incremental borrowing rate (IBR) has been used to calculate the net present value of the right of use asset and lease liability at the time of initial application. An average of lending rates available in the market for similar use and purpose has been used to determine the IBR.

Additional information in regards to leases can be found in the following Notes;

Finance costs - Lease interest	Notes 12
Right of use Property, plant and equipment	Notes 19
Lease Liabilities	Notes 23

2.18 Staff benefits

These benefits accrue for staff as a result of services provided up to the reporting date that remain unpaid. Long-term staff benefits are measured at present value and short-term staff benefits are measured at nominal amounts.

Full time equivalent (FTE)

FTE has been calculated using total quantity of hours throughout the year.

Accrued salaries and wages

The liability for accrued salaries and wages is measured as the amount unpaid at the reporting date at remuneration rates current at reporting date.

Sick leave

A provision has not been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by staff is estimated to be less than the annual entitlement of sick leave.

Annual leave

The annual leave liability is expected to be payable within twelve months and is measured at the undiscounted amount expected to be paid. In the unusual event where annual leave is payable later than twelve months, the liability will be measured at present value.

Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. All long service leave eligible to be taken is recorded as a current liability.

2.19 Provisions

Provisions are recognised when the Entity has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

For the year ended 30 June 2022

2.20 Critical accounting estimates and judgements

The World Health Organisation (WHO) announced a global health emergency on 31 January 2020 in relation to the 2019 novel coronavirus (COVID-19) outbreak. The quantitative financial impact of Covid-19 as at 30 June 2022 is immaterial on the solvency and financial position of ac.care, but may impact on the comparability of some line items and amounts reported.

Disruption caused by the outbreak has resulted in the inability to hold fundraising dinners (these are worth less than 1% of our total income biennially), reduced volunteer assistance due to Government restrictions/lockdowns, increase in use of some client services, reduction in expenditure relating to travel, training and meetings. Importantly, there has been no major impact to our ability to renew Government funded contracts on same or similar terms as they expire due to the outbreak to date. No additional Government funding was received in the 2022 financial year to specifically assist with Covid 19.

2.21 New and Amended Accounting Standards Adopted by the Entity Initial adoption of AASB 1060: General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities

The entity has adopted AASB 1060: General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities for the first time this reporting period. The Standard, which sets out a new separate disclosure Standard to be applied by all entities that are reporting under Tier 2 of the Differential Reporting Framework in AASB 1053: Application of Tiers of Australian Accounting, replaces the previous Reduced Disclosure Requirements (RDR) framework. The application of this standard has resulted in reductions in disclosures compared to RDR in Revenue, Leases and Financial Instruments; however has resulted in new and/or increased disclosures in areas such as Audit Fees and Related Parties.
